## JAWERIA AFROZ

It's really a great privilege to join IIBS and is one of the best choices I have ever made. IIBS helped me to explore my knowledge and experience to get into a corporate world. I want to thank the management for giving me this opportunity of being a part of this great institute. It really has helped me in my career growth. The journey started with learning programs, games, competition and many business plans that show how the corporate world actually works. We worked upon different aspects of marketing, finance and human resource in our very beginning of the PGDM program which gave us the overview of the business environment. And all these activities were possible only because of our great faculties and management team.

## AKSHAY KUMAR

Being a student of IIBS is an absolute pleasure, academically and humanely. Since the beginning of my journey at IIBS, the ultimate motive for me and my peers was to achieve a steady rate of progress. A person may find it difficult to ignite momentum in his life. We know it is difficult to light a fire but once it's lit, it rages with not many external factors to stop it immediately, there is momentum. IIBS showed me the path to an arena filled with knowledge, opportunities and the various routes I can opt. We achieved momentum one way or the other, giving us a purpose to chase every day with maximum support from the faculty. A student here who is keen and teachable with peak indefatigability will be able to reach higher highs with absolutely no stopping unless he decides so.

I am from Nagpur, Maharashtra, and currently pursuing PGDM at IIBS College in Bangalore. Choosing IIBS has been the best decision I've ever made. It has helped me explore, learn, and excel in my life. The journey began with learning programs, games, competitions, and various business activities. We covered different aspects such as marketing, finance, and HR at the start of the PGDM program, providing us with a comprehensive understanding of the business environment. All these activities were made possible by the dedicated faculty and management. The faculty members at IIBS are genuinely friendly and provide the necessary support whenever needed. I also appreciate the teaching staff and their practical teaching methods, which go beyond theory. It's always a great feeling to be a part of this institution, and I thank the management for this valuable experience. My overall experience at IIBS has been truly pleasant, and I am grateful for IIBS being with me.

Our programmes are made to augment the education available by IIBS by providing a range of real-world learning opportunities outside of the classroom. Young talents fly high with radiant colours both academically and artistically, and surface is the harbinger to mould them. SURFACE gives students a breath of fresh air during the hectic schedule of academic curriculum by engaging them in various cultural and management activities.

An annual intra-collegiate management and cultural fest called "SURFACE" is put on by IIBS for management students. Every management student is inspired by this premier event, and it also gives them a chance to show off their skills. With the assistance of faculty, students create, plan, and carry out the entire event within the allotted time frame, featuring their unique and innovative talent.

This event's management games set high standards with the ideal blending of leadership qualities and skills. It features distinguished rounds in various business sectors, bringing

together the best talent on one stage. Students are given access to professional expertise for the cultural performances, such as choreography for dance and fashion shows, dress design, grooming, and makeup, so they can perform to the best of their abilities. The students receive help from an event management company with a sound system, stage decorations, and efficient laser lighting.

SURFACE is a brilliant way for students to develop their collaborative skills and boost their self-confidence while having fun. The students can make a significant transition into the corporate world due to the experience and confidence they gain from these events. Additionally, it motivates students to participate in large numbers, which makes them feel successful.

IIBS Surface is truly inspirational platform to bring students talent to the front.
